- 1x CM Suspect arrested for theft of Bolts.

Dynamo Street – 11/10/2023

- 1x CM arrested for possession of Housebreaking implements.

Alarm System Maintenance

- Have your alarm system checked before going on vacation.
- If Possible ask a responsible person to do periodic checks at your home, especially after a long spell of load shedding. Supply your alarm monitoring company with his/her name and number.
- Alarm system batteries will last between 2-3 hours when new, the older the battery the faster it will run down.
- If possible replace current battery with a deep cycle battery that will last longer.
- If you have a wireless system check all PIR sensors and beam batteries, to prevent false alarms or in worse case scenario the sensor or beam not working.
- Ask your Alarm technician to run a fun diagnostic test on your alarm system.
