Statutory Mandate

The Blackheath City Improvement District NPC is governed by the CID By-law and Section 22 of the Municipal Property Rates Act. Its main responsibility is to consider, develop, and implement improvements and upgrades within the geographical area of the Blackheath City Improvement District, supplementing services provided by the CCT.

Funding for these initiatives comes from additional rates collected by the CCT from qualifying property owners within the CID's registered boundaries. The collected rates are then allocated to the company according to the legislation. The CID may also receive additional funding through local fundraising initiatives.

In managing these funds, the company operates under the oversight of the CCT, adhering to the CID By-law and CID Policy, as well as the public procurement principles enshrined in Section 217 of the Constitution of the Republic of South Africa, 1996. These measures ensure transparency, accountability, and effective use of resources for the improvement and development projects within the BCID.

PUBLIC SAFETY AND SECURITY

To improve public safety and security the BCID works in partnership with the following:

- BCID Public Safety Service Provider
- SAPS
- Local CPF's
- Other security service providers in the area
- City of Cape Town (Metro Police, Law Enforcement and Traffic Services)
- Neighbourhood Watches
- Community organisations
- Other security stakeholders

The BCID is patrolled 24 hours a day, seven days a week. This is achieved by a patrol vehicle, a manned security caravan, a radio and communications network and a manned control room. The BCID uses the dedicated services of a Law Enforcement Officer from the City of Cape Town, paid for by the BCID. The officer assists in enforcing compliance of CCT By-laws, has powers of arrest, issues fines for transgression of CCT by-laws and enhances law and order within the BCID.
